Carlos

The SCAP has the RI/FS for Falcon being completed in June 2015, given the current availability of funds I think that the RI/FS will be completed by Oct 2015. I will also need to adjust the dates for the ROD for Falcon in the SCAP as well.

thanks

brian w. Mueller

If you have anything in these categories, please confirm with Cathy for input to the regional July ACS commitments.  
Thanks, Hebert

Our ACS categories are:  
RA Project Complete  
Construction Complete  
HEUC  
GWMUC  
SWRAU  
The attached has what was in CERCLIS for most of these. I have highlighted the applicable categories. Need to see if these are still correct.

**Subject:** Draft FY 2015 Regional Commitments

Greetings Colleagues,

This message is a reminder that FY 15 draft regional performance commitments due in ACS by July 9, 2014. Regional offices should consider past performance, program priorities, and budget realities as they set FY 2015 targets and enter initial bids. To ensure additional transparency in the commitment process, regions are required to identify contributions from states and tribes in achieving FY 2015 draft and final commitments and national targets, to the extent possible, and enter this information in ACS.

Regions are required to e-mail OCFO indicating they have entered draft FY 15 regional performance commitments. To ensure timely and accurate completion, please review draft commitments by **July 2, 2014** and notify Dannell Brown, Regional Strategic Planner via email that the draft bids accurately reflect the programs' expectations for the upcoming year. He will notify OCFO on the Region's behalf.
